### SUPERIOR EQUIPMENT LOADING

The 10ET features a sturdy 36" cleated dovetail designed to provide superior traction and prevent slippage during equipment loading and unloading.

### EFFORTLESS MAINTENANCE

Our forward self-adjusting brakes make brake maintenance a breeze. The system automatically adjusts the brake shoes as they wear down, eliminating the need for manual adjustments.

### SECURE YOUR CARGO

Our Front Stop Rail keeps your equipment safely on the deck and prevents it from rolling off during transit. It also protects your tow vehicle from potential damage caused by shifting cargo.

### CONVENIENT LOADING

Our 4' stand-up knee ramps make it easy to load your vehicles onto the deck. With their convenient height and sturdy design, you can be sure that your loading process will be smooth and efficient.
