 DECK HEIGHT: 29"

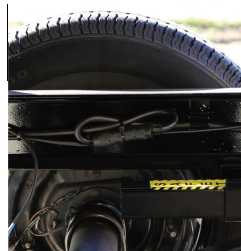

SMALL & COMPACT

The 50SR is small and compact making it easy to maneuver between houses, barns and other obstacles. The small size also makes it ideal to be towed behind lighter-duty vehicles.

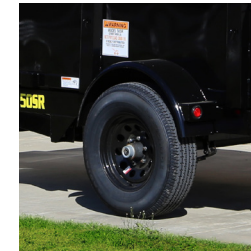

CONVENIENT DOUBLE REAR DOORS

Our double rear doors simplify the process of dumping cargo, with added support from the integrated spring holdback system, ensuring a seamless and efficient unloading experience.

SEALED MODULAR WIRING HARNESS

A Sealed Modular Wiring Harness protects the wiring of the 50SR. Since it's modular, repairs are much faster and easier!

EFFORTLESS MAINTENANCE

Our forward self-adjusting brakes make brake maintenance a breeze. The system automatically adjusts the brake shoes as they wear down, eliminating the need for manual adjustments.
